The proposed settle of Microsoft vs. US is far too weak. As a software professional who has worked in the field for 20 years and as a keen observer of Microsoft's unfair tactics, I believe that the proposed settlement will do next to nothing to stop Microsoft's outrageous abuse of their monopoly status. At the very best, the proposed settlement is a slap on the wrist. To this concerned citizen, it looks like a sell-out.

Sincerely,  
Sam
